-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to the Solomon reference have been considered but are moot in view of the new ground of rejection.

Allowable Subject Matter

2. The indicated allowability of claim 3,7,10,21,25, 28,37 and 38 is withdrawn in view of the newly discovered reference to Watrous, U.S. Patent Application 2002/0052559. Rejections based on the newly cited reference follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 3,7,10,21,25,28,37 and 38 are rejected under 35 U.S.C. 102(e) as being anticipated by Watrous.

Regarding claims 3,7,10,21,25,28,37 and 38, Watrous discloses a method for synchronously delivering complementary data to a first device and a second device (and for delivering first data through a network for playback on a first device in synchronicity with playback or display of second data on a second device, the first data

Art Unit: 2686

and the second data forming complementary data (or supplementary data) the method comprising:

receiving a command through a network for synchronous transmission of complementary data; and transmitting first data through the network to the first device, the transmission of the first data synchronized with transmission of second data transmitted to a second device, the first and second data forming complementary data (and wherein the network is a first network and second data is transmitted to the second device through a second network), wherein the network (and second network) is an Internet (and PDA, reads on handheld LCD or computer monitor) (page 5 [0071] and page 6 [0079-0081]).

Allowable Subject Matter

5. Claims 13-15 are allowed.
